Employment barometer in 4th quarter 2009

Stable employment and positive signals for the beginning of 2010

Neuchâtel, 25.02.2010 (OFS) – **The employment barometer indicators published each quarter by the Federal Statistical Office (FSO) show a stable employment level. The secondary sector, however, is still plummeting, while the tertiary sector continues to advance. The employment outlook indicator and the job vacancy index indicate a possible improvement of the situation in the 1st quarter of 2010.**
