Pension Fund Statistics: final results 2018

Pension funds have absorbed 2018 fall in stock market values

Overall, the pension funds have survived the sluggish stock markets of 2018. The negative net return on investments was largely offset by using 40% of the existing reserves for fluctuations in asset value. Underfunding rose by 20%. These are some of the final results from the Federal Statistical Office's 2018 pension fund statistics.
