### 11 Mobility and transport

Statistical report 2018

## The A to Z of transport: A statistical overview of transport in Switzerland

How many kilometres do Swiss residents travel per day? How high is the share of electric vehicles in the number of passenger cars registered? Is the goods transport on Swiss roads "home-made" or mainly the result of the exchange of goods within the EU? Which road users are most often involved in accidents? Answers to these and many other questions can be found in the newly published overview "Mobility and Transport 2018" from the Federal Statistical Office.
